Subject: RE: 2025/4916 – Tweedale and CEO, Services Australia - Request for case conference

Dear -----,

I write to enquire whether the respondent in the above matter would be willing to participate in a case conference to explore whether the issues requiring determination by the Tribunal could be narrowed.

In particular, in relation to the ground of refusal under s 33(a)(i), it appears to the applicant that there may be some matters on which agreement could be reached between the parties. Narrowing the issues in dispute would reduce the evidence required to be adduced by each party and assist in ensuring that the Tribunal's time and resources are used as efficiently as possible.

Please let me know whether the respondent would be prepared to participate in a case conference, and if so, your availability for a short meeting to discuss how we might proceed.

Kind regards

Jason
